- Training and spreading distributors to cover more area in Indonesia.

Motto:

- Fast – Accurate – Satisfying

Value:

- Quality Proved Speed
- Clarity & Cleanliness
- Individual Responsibility & Reliability
- Endless Improvement

Quality Proved Speed

As time is an important aspect in medical field, especially in tight situation, we believe we should be adapted to handle things with agility, that results could be expected soon as it starts, delivery should be punctual and no problem to be left too long unsolved; but without forgetting the quality of our job.

Clarity

For us clarity should starts inside out, that every personal in our company must have a clear understanding of what and how we are doing things, and most importantly, why we are doing. Rather than producing something cheap and unreliable, clarity should also be in result and in every decision we make.

Individual Responsibility and Reliability

Every person working in Oncoprobe should be accompanied with proper skill and knowledge, those expected to come from each of them, not only knowing but also mastering. It should also be a habit to be personally responsible to what we have committed, not to lay blame, and always thrive to exceed what we have promised.

Endless Improvement

We will grow along as how the world grows. Because things and needs in the future might be different, so we must be able to adapt the change, never to be satisfied with what we have and never to settle less to the finest.
